**Experience discreet addiction rehab in your patient's home or one of our partner resorts**

***Here's how Daraknot Health can help***

We offer private, in-home drug and alcohol rehab care by providing your patient a discrete, individualized program that meets them where they are. Our programs are tailored to the personal and professional needs of our clients, allowing them to begin their journey to sobriety in their home or one of our partner resorts.

***YOU are included in your patient's recovery***

When a patient enters a rehab facility they are often removed from outside connections including their personal provider. With Daraknot Health *you* are included in your patient's recovery program. So you don't lose a patient, you gain a support team.
